1 Introduction

This manual will explain to you how to install/uninstall our game.

2 Windows

The installation for Windows is very straight-forward. Just like any other application, once you have downloaded the file named "Rukmaksii.exe", a simple double-click on it installs the game. Once the game is installed, feel free to launch it from the start menu.

Uninstalling it also is similar to other Windows applications; just press right click and then uninstall on the application.

3 Mac OS

The installation for Mac OS is very simple!
Once you've downloaded the game you have a file named "Rukmasii.dmg".
Double click on it, an external storage appears on your desktop, open it.
Drag and drop the Rukmaksii application in the Application folder next to it.
Done ! You can now eject the external storage and place "Rukmaksii.dmg" in the trash.
The game is installed, enjoy !!

To uninstall the game go in **Folder →Application →right-click on Rukmaksii →place in the trash**
The game is uninstalled.
